

Mini Peek™

Color / Black & White

Small, tough, cost efficient.

Affordable
All-in-One Solution
Lightweight
Entry Level

Ratech's Mini Peek™ small pipe inspection system offers a 5" Black and White monitor, a 1.2" Black and White camera, 100' of durable cable and a 512Hz sonde transmitter all housed in a convenient, light weight, and highly portable reel enclosure or if you prefer it is also available with a 5" color LCD monitor.

At the core of the system is a 1.2" Black and White camera or 1" color camera. The camera features a high sensitivity low lux camera housed in a shock resistant and water tight stainless steel body with a flexible gooseneck assembly. Built into the camera, for convenience, is a 512Hz sonde transmitter which allows it to be located with most receivers. Complementing the camera is 100' of highly durable yet flexible cabling which is housed on a sturdy lightweight reel.

At the top of the reel is the 5" monitor that produces a crisp and clear picture which allows the operator to SEE EVERYTHING™. This all-in-one pipe assessment solution is the perfect tool for those just getting into pipe inspection or long time veterans. The Mini Peek™ highly cost effective system is aggressively priced without sacrificing quality.
